

PIXELADIES

One-Hour Presentations

Ack! There's a Computer in My Studio!

Come along on a virtual tour of the Pixeladies' studio computer (yep, the computer, not the studio) as we explain how we use the computer to enhance our art and sewing projects. We will show you how we develop designs, create fabric, and organize images (and ourselves) using computer technology. We'll have some fun little breaks during this presentation!

"Crossing the Bridge with Faith" (Quilt)

Furoshiki: Fun with Fabric Folding

With all that fabric in your stash, don't you wish you could do something else with it instead of sew, sew, sew? Learn how to take a square of fabric and wrap bottles, boxes, books, and more! The Japanese call it furoshiki - we call it fun! This is a hands-on demonstration. See separate flyer for more details.

Watermelon Wrap

Stories in Cloth

Everyone has stories to tell. They may connect us to our broader history or just our families, but they are all meaningful. Using historical examples as well as tales from our commissions and personal works, we will demonstrate how to create quilts that are not only vibrant and visually stunning but also rich in narrative. From blocks that work to free form, from pieced to whole cloth, we will provide you with plenty of examples to inspire you to commemorate special events and memories in cloth.

"Katie's Quilt" (Detail)
